Hand Suction Lifters

KV-9601HP8A - 8" Hand Suction Lifter

Hand suction lifters are useful tools for professional glaziers and other trades for lifting smooth non-porous loads such as glass sheets, marble work tops & metal sheets etc. Suction force is created by a hand operated pump integrated into the handle assembly. These light weight easy to use tools complement the toolbox of many trades.

Protective cover & carry case included

GS Loading Capacity		Loading Capacity		Net Weight	Material	Diameter	Main Body
55Kgs	↑	80Kgs	↑	0.85Kgs	Plastic	203mm	Plastic
